Animal Derived Ingredient Free Statement

Fluid Path Products, LLC certifies that final production articles comprised of Platinum Cured Silicone, EPDM, Viton/FKM, Stainless Steel filled PTFE / TFM and PTFE in all varieties and colors, do not incorporate the use of any animal derived ingredients. The emergence of transmissible spongiform encephalopathy, which can manifest into Creutzfeldt-Jakob disease in humans, has raised concern in the pharmaceutical and biotech processing industries. We share this concern and are aware of the consequences in exposing product to animal derived ingredients. Accordingly, Fluid Path Products has taken every precaution to ensure that the ingredients in our polymers, release agents, and mold cleaning agents do not have the presence of animal derived ingredients.

Non-Controlled Copy

All products are animal derived ingredient free.
